

# Change Notice

2023-01-02 13:51

Date: 2022-10-20

Publication: [www.solveco.se](http://www.solveco.se)

To whom it may concern: all customer base

Change level: minor

Implementation: immediate

## Background to the change

A minor deviation was discovered during an internal audit that impacts article code 1254. According to the CoA the method used for analysis of WFI at tank is according to Ph.Eur. and USP while the actual analysis is exclusively done according to Ph.Eur.

## Description of the changes

The changes affect the description of the method used for analysis of WFI at tank in the CoA. The changes are at the description level and the method of analysis or the content of the product remain unchanged.

- Analysis at tank. WFI-USP is changed to analysis at tank. WFI Ph.Eur.
- Method USP current edition is removed. Method Ph.Eur. remains.
